WORK-RELATED MIGRATION

In 2019, Lithuania continued to facilitate work-related migration.

Lithuania introduced the **possibility for a foreigner (defined as a third-country national) to change a job function** with the same employer without obtaining a new residence permit.

Employers included on the list of approved enterprises could assess a **foreigner's qualification** against the requirements of their workplace. All other employers could only do this for **highly qualified professionals**.

Lithuania facilitated conditions of residence on the ground of business and employment for nationals of **Australia, Japan, the United States, Canada, South Korea and New Zealand**. These applicants were issued with a temporary residence permit for up to three years and could immediately bring their family to join them.

Lithuania regulated the **employment of foreigners who enjoy visa-free travel**. They were allowed to take up employment only if they were in possession of a work permit.

To better regulate incoming flows of foreign workers Lithuania decided to **introduce quotas** for foreigners

KEY POINTS

Lithuania implemented a migration management reform that divided migration management functions between the **Migration Department and the State Border Guard Service (SBGS)**.

The **Lithuanian Migration Information System (MIGRIS)** was launched, with the majority of services for foreigners now available online.

Legal prerequisites were created for foreigners to acquire and use the status of an **electronic resident in Lithuania (e-resident)**.

included on the list of shortage occupation (effective from 01 July 2020).

Lithuania created legal prerequisites for foreigners to acquire and use the status of an electronic resident in Lithuania (**e-resident**).

STUDENTS AND RESEARCHERS

Lithuania **facilitated the employment of foreign graduates**, no longer requiring them to undergo the labour market test, irrespective of whether their employment was related to a qualification acquired in Lithuania.

Lithuania introduced the **requirement of academic attainment** for foreign students and established a new ground for refusing to issue or renew a residence permit,

where a student collected less than 40 academic credits within one year and presented no reasons to justify that performance.

FAMILY REUNIFICATION

The Constitutional Court decided that **same-sex foreign spouses or partners were entitled to a residence permit** on the ground of family reunification where their spouses or partners were Lithuanian citizens.

INTERNATIONAL PROTECTION INCLUDING ASYLUM

IMPLEMENTATION OF THE COMMON EUROPEAN ASYLUM SYSTEM

Following the migration management reform, the functions related to asylum procedures that were previously performed by competent police units were transferred to the Migration Department and SBGS.

IRREGULAR MIGRATION INCLUDING MIGRANT SMUGGLING

MISUSE OF LEGAL MIGRATION CHANNELS

The SBGS reported that the introduction of **visa-free travel with Ukraine** increased the inflow of Ukrainian nationals by 35.2% but did not affect the number of applications for asylum. However, the number of illegally staying and illegally employed Ukrainian nationals increased.

The SBGS noted an increase in **misuse of the asylum procedure**, where persons lodged asylum application at border crossing points and were admitted to the territory of Lithuania, before then unlawfully departing to other EU Member States, pending a decision on their application.

The Migration Department and the State Tax Inspectorate agreed to **share data**, allowing migration

authorities to assess whether business activities declared by foreigners were carried out.

Lithuania introduced an **obligation for employers** to inform the Migration Department of the termination of foreigners' employment contracts.

In order to prevent misuse, Lithuania reintroduced the **obligation for posted workers** to obtain a work permit in Lithuania.

Lithuania extended the circumstances under which an **alternative to detention** may be provided. These included foreigners providing assistance in establishing their legal status and entrusting the guardianship of a foreigner to a resident where no family relationship existed between them.

No significant developments in 2019.

RETURN MIGRATION MANAGEMENT

Lithuania continued to ensure **effectiveness of return**. In 2019, 87% of voluntary returns and 71% of expulsions were implemented.

To streamline the return management process, the **SBGS was given a mandate** to issue decisions on expulsion and to impose entry bans.

Lithuania expanded the groups of third-country nationals eligible for **voluntary return**. Foreigners who unlawfully entered or stayed illegally in Lithuania could be issued a return decision with a voluntary return

period if they expressed their willingness for voluntary return and cooperate with the authorities.

Lithuania established a **new ground for detention** of foreigners where they failed to cooperate with the competent authorities during the asylum or return procedure.

COOPERATION WITH THIRD COUNTRIES

The Republic of Lithuania and the Socialist Republic of Vietnam signed the **Agreement on readmission**. With Vietnamese nationals continuing to be the dominant nationality among detained irregular migrants in Lithuania, the agreement was intended to facilitate readmission of Vietnamese citizens.

The Republic of Lithuania and Ukraine signed the implementation protocol for the **Agreement between the European Community and Ukraine on readmission**. The Agreement came into effect on 1 January 2020.

STATISTICAL ANNEX

The Statistical Annex was prepared by the European Commission's Knowledge Centre on Migration and Demography (KCMD). It provides an overview of the latest available statistics for Lithuania on aspects of migration and international protection (2016-2019), including legal residence, asylum, unaccompanied minors, integration, irregular migration, return and visas. Where statistics were not available at the time of publication, this is indicated in the Annex as 'N/A'.

A How to Read guide, describing each chart and reporting the sources, is available [here](#).

GENERAL NOTES

This four-page statistical annex complements the Country Factsheet with relevant migration-related data organised in nine thematic sections. The dashboard-like layout of the annex allows comparability across countries as well as simultaneous visualisation of different indicators.

Whenever data is not available, the relative chart is left blank or indicated with 'N/A'. Data are provided for the latest available year or the latest available four-year period.

The sum of percentages or of individual values might not add up to 100 or to the total value. This is due to rounding and confidence intervals in the original data. A How to Read guide, describing each chart and reporting the sources, is available on the EMN website.

COLOUR LEGEND

Whenever not specified, the following colour legend is adopted. Colours for multiple nationalities are randomly chosen.
