1. BACKGROUND INFORMATION

In 2021, new regulations for au pairs to obtain a residence permit in the Netherlands were introduced by the Ministry of Justice and Security. According to the new rules, au pairs must be unmarried, are not allowed to have (foster) children of their own, and must be under 25 years old at the time of the application. The new regulations apply to applications submitted after October 1, 2022. The aim of these changes is to reduce the vulnerability of au pairs and to prevent potential misuse of the program. The impact of the policy adaptations will be evaluated,

with results expected in 2024. In this context, it is considered valuable to compare the Dutch au pair regulations with those of other EMN Members.

We would like to ask the following questions:

1. What are the main requirements for au pairs seeking to obtain a residence permit in your country? (e.g. age, marital status, previous residence statuses)
2. Is it possible for a third-country national who has minor (foster) children themselves to obtain a residence permit as an au-pair in your country? If yes, what are the policies regarding the (foster) children of the au pair?
3. Are there any financial requirements for au pairs, like pocket money or other (financial) benefits in order to grant the residence permit? YES/NO If you answered yes, what is the maximum amount?
4. Is facilitation by a recognized au pair agency as a sponsor mandatory, or can the host family independently act as a recognized sponsor for the au pair?
5. Are there any regulations or restrictions regarding the tasks au pairs are allowed to perform within the household of the host family? YES/NO If you answered yes, please explain what these regulations and/or restrictions are.
6. How are regulations regarding au pairs enforced? When answering please indicate which authority is responsible and if violations are detected what are the sanctions imposed.

We would very much appreciate your responses by **16 April 2024**.
